

# REPUBLIC COUNTY COMMUNITY WEBSITE

## WHY?

Regardless of your company's or organization's objectives, there are many reasons to use an online marketing channel. According to information from the Internet Commerce Commission, 73% of consumers shop online to gain knowledge for products and services before making a purchase at their local store. With so many consumers searching the web finding your competition's products or services, developing and maintaining an online presence is more important than ever.

# ONLINE MEMBERSHIP PROGRAM

The Online Membership Program offers affordable, professional online presence for your business or organization. By partnering together, the program allows the high cost of developing and maintaining a competitive, cutting-edge web presence to be divided between the members. Republic County Economic Development has entered into an agreement with AppleOne Media and paid the upfront development expenses of the community website, giving businesses and organizations an affordable, easy option for a professional online presence.
